

COMMERCIAL CONTRACTS

From our Thames Valley base we act for a wide range of commercial clients from small to medium sized owner-managed businesses to large companies including a number of US and European organisations with interests in Europe and further afield. We also have niche experience in acting for clients in the new media, pharmaceutical, medical and specialist transport sectors.

Commercial transactions are handled by our specialist department and we make it our business to get to know our clients' business so that we can provide clear, practical advice on contractual issues which our clients can rely upon in their trading activities.

Our lawyers are able to advise on one-off strategic transactions or day-to-day legal issues as they arise, covering a broad range of commercial areas.

The commercial contracts team can advise on the following:

- structuring complex commercial ventures
- franchise, agency and distribution agreements
- terms and conditions of trade
- outsourcing contracts
- contract liability and risk assessment
- European regulations and compliance
- contract drafting and negotiation
- Competition
- Intellectual Property protection and exploitation
- software licensing
- consultancy agreements and complex subcontracting arrangements
- internet and e-commerce issues
- data protection and privacy
- technology and know-how supply and use
- clients contracting with the government as main or sub-contractor (particularly in IT and health services procurement)
